SUMMARY

A web developer with skills in both the back-end of web applications and the front-end. Known for having a passion for analyzing problems and building systems and processes to solve them.

TECHNICAL SKILLS

Frontend: HTML (HTML5), CSS (CSS3), jQuery, Javascript, Bootstrap, AJAX, ReactJS, Tailwind CSS, Material UI, Bulma CSS

Backend: MySQL, MongoDB (NoSQL), Mongoose, Express (Express.js), React, Node (Node.js), Java, Spring Framework, Handlebars, Webpack, Sequelize, ORM (Object Relational Mapping)

PROJECTS

Cinema & Sip | **Repo:** https://github.com/ST12345678910/CinemaAndSip |
Deployed: https://st12345678910.github.io/CinemaAndSip/
- Cinema & Sip is a web application that generates a suggested pairing of a movie and beverage based on a user selecting a movie genre and alcohol type.
- Our project utilizes two consistently updated APIs to ensure relevant and new results for each use.

Tools/Languages: JavaScript, jQuery, HTML, CSS, Bulma, TMDB/Cocktail DB APIs

Stack Up | **Repo:** https://github.com/skcruzer/StackUp |
Deployed: https://stackupapp.netlify.app/
- An application where developers can post their projects to receive real, honest feedback from community members and network with like-minded individuals.
- We used React for the front-end of the application, Mongoose ODM to connect to the Express framework, and the data is queried and mutated through GraphQL and stored inside the MongoDB instance.

Tools/Languages: React, Node.js, MongoDB, Mongoose, JWT, Express, JavaScript, GraphQL, CSS

HMS | **Repo:** https://github.com/skcruzer/GHW--Hospital-Management-System |
Deployed: https://hosp-man-sys.herokuapp.com/dashboard.html
- A Hospital Management System that helps manage the information related to health care and aids in the job completion of health care providers effectively.
- We used node.js and express.js to create the Restful API and used MySQL and Sequelize for the database.

Tools/Languages: Node.js, MySQL, Sequelize, Express, JavaScript, HTML, CSS

ADDITIONAL EXPERIENCE

General Manager   2020 – 2022
The Stand LLC.   Irvine, CA

· Responsible for completing daily pre-opening paperwork highlighting the restaurant's financial objectives (Productivity/Labor and COGs).

· Cross-trained in all store positions to oversee all daily operations performed by associates to ensure quality and efficiency are at their best.

· Continually monitors restaurant operations and takes appropriate action to ensure Health & Safety guidelines are being met.

VP Operations   2019 – 2020
Pescatore Seafood Co.   New York, NY

· Supervised day-to-day operations and strategic forward planning to identify and reconcile any issues that occurred at the production, distribution, and retail levels of the company as well as ensure seamless operations across the business and various teams.

· Developed and implemented a digital log that included key updates, progress towards projects, and any issues that surfaced which were shared with the President and other owners of the company daily. The digital log proved to be essential as it provided timely updates with recommended solutions and feedback for all aspects of the company.

· Other major responsibilities included quality assurance & record keeping to ensure company protocols abided by FDA regulations and health standards. Responsible for employee onboarding, testing & training, Microsoft Teams resource management, and IT liaison & support.
Furloughed and did not return to the company because of the COVID-19 Pandemic.

Head of Production   2015 – 2019
Nolita Natural Inc.   New York, NY

· One of seven founding Board Members responsible for creating the Nolita Natural brand and growing the business to sell in 425 stores, including nationally recognized markets such as Walmart, Whole Foods, and Kroger.

· Spearheaded board meetings to inform other members on business progress and growth potential to execute business decisions.

· Fostered and cultivated many relationships within the industry, including but not limited to, large-scale company buyers, distributors, business clients, logistics companies, and customers. Relationship responsibilities included cold outreach, consistent check-ins/status updates, and resolving any service process conflicts.

· Responsible for managing and supervising business accounts such as payroll, banking, product production, and marketing.

EDUCATION

Full-Stack Web Development Boot Camp Certificate: UC Irvine, Irvine, CA
Bachelors in Psychology: UC San Diego, La Jolla, CA
